Match Score: 38.13%

Hiring Recommendation: Low Match

Matched Skills:

tableau, aws, power bi, python, sql

Missing Skills:

azure

Top Resume Keywords:

data, aws, using, power, python, realtime, model, learning, sql, pandas

AI Resume Feedback:

- Low match score. Resume needs optimization.
- Strong skills detected: tableau, aws, power bi, python, sql.
- Consider adding skills like: azure.

Resume Improvement Suggestions:

- Add more job-specific keywords from the job description.
- Include measurable achievements with numbers and business impact.
- Add relevant experience or project details related to azure.
- Use clear project bullet points with tools, action, and result.
- Mention real-world impact such as time saved, accuracy improved, or cost reduced.

Suggested Interview Questions:

1. What is AWS Lambda?
2. Difference between EC2 and S3?
3. Explain AWS IAM.
4. Explain Python decorators.
5. Explain generators in Python.
